SECTION 2: Hazards identification		24 hours (Diverted out of office hours)		
	SECTION 2: Hazards identification			

2.1. Classification of the substance or mixture

2.1.1. Classification -	Xi; R36/37/38-43
1999/45/EC	Symbols: Xi: Irritant.
Main hazards	Irritating to eyes, respiratory system and skin. May cause sensitisation by skin contact.
2.1.2. Classification - EC	Skin Irrit. 2: H315; Skin Sens. 1: H317; Eye Irrit. 2: H319; Aquatic Chronic 3: H412;
1272/2008	

2.2. Label elements

Hazard pictograms

Signal Word	Warning
Hazard Statement	Skin Irrit. 2: H315 - Causes skin irritation.
	Skin Sens. 1: H317 - May cause an allergic skin reaction.
	Eye Irrit. 2: H319 - Causes serious eye irritation.
	Aquatic Chronic 3: H412 - Harmful to aquatic life with long lasting effects.
Precautionary Statement:	P261 - Avoid breathing dust/fume/gas/mist/vapours/spray.
Prevention	P264 - Wash thoroughly after handling.
	P272 - Contaminated work clothing should not be allowed out of the workplace.

Revision 0 Revision date 2015-06-16

2.2. Label elements

	P273 - Avoid release to the environment.
	P280 - Wear protective gloves/protective clothing/eye protection/face protection.
Precautionary Statement:	P302+P352 - IF ON SKIN: Wash with plenty of water/ .
Response	P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact
	lenses, if present and easy to do. Continue rinsing.
	P321 - Specific treatment (see on this label).
	P332+P313 - If skin irritation occurs: Get medical advice/attention.
	P333+P313 - If skin irritation or rash occurs: Get medical advice/attention.
	P337+P313 - If eye irritation persists: Get medical advice/attention.
2.3. Other hazards	

Other hazards This product does not contain any substances classified as PBT or vPvB.

SECTION 3: Composition/information on ingredients

SECTION 4: First aid measures

4.1. Description of first aid measures

Inhalation	Move the exposed person to fresh air. Remove casualty from exposure ensuring one's own safety whilst doing so. Seek medical attention if irritation or symptoms persist.
Eye contact	Rinse immediately with plenty of water for 15 minutes holding the eyelids open. Seek medical attention.
Skin contact	Wash off immediately with plenty of soap and water. Remove contaminated clothing. Seek medical attention if irritation or symptoms persist.
Ingestion	If swallowed, do not induce vomiting: seek medical advice immediately and show this container or label. Keep the affected person warm and at rest. Rinse mouth thoroughly. Drink 1 to 2 glasses of water. Seek medical attention.

4.2. Most important symptoms and effects, both acute and delayed

	 ·		
Inhalation	Inhalation may cause	coughing, tightness of the	e chest and irritation of the respiratory system.

T62

Revision 0 Revision date 2015-06-16

Irritating to skin. Eczema. Itching. Ingestion may cause nausea and vomiting.		Revision date 2015-06-16
Irritating to skin. Eczema. Itching. Ingestion may cause nausea and vomiting.	4.2. Most important symptom	s and effects, both acute and delayed
Ingestion Ingestion may cause nausea and vomiting. 4.3. Indication of any immediate medical attention and special treatment needed Remove the affected person from the source of contamination immediately. If you feel unwell, seek medical advice (show the label where possible). SECTION 5: Firefighting measures 5.1. Extinguishing media Alcohol resistant foam. Carbon dioxide (CO2). Dry chemical. 5.2. Special hazards arising from the substance or mixture Burning produces irritating, toxic and obnoxious fumes. 5.3. Advice for firefighters In case of fire and/or explosion do not breathe fumes. Wear Protective equipment. Self-contained breathing apparatus. Cool fire exposed containers with waterspray. SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures Ensure adequate ventilation of the working area. Wear suitable protective equipment. 6.2. Environmental precautions Do not allow product to enter drains. Prevent further spillage if safe. 6.3. Methods and material for containment and cleaning up Absorb with inert, absorbent material. Sweep up. Transfer to suitable, labelled containers for disposal. Do not allow unproff water to enter sewers or drains. Do not empty into drains; dispose of this material and its container in a safe way. 6.4. Reference to other sections Refer to section 8 of SDS for personal protection details. If outside do not approach from downwind, keeping bystanders also upwind and away from danger point. Mark out the contaminated area with signs and prevent access to unauthorised personnel. Turn loaking containers leak side up to prevent escape of liquid. SECTION 7: Handling and storage Avoid contact with eyes and skin. Wear suitable protective clothing and gloves. Wear eyelface protection. Ensure adequate ventilation of the working area. Adopt best Manual Handling considerations when handling, carrying and dispensing, Do not eat, drink or smoke in areas where this product is used or stored. Wash hands after handling the product. 7.2. C	Eye contact	Irritating to eyes.
4.3. Indication of any immediate medical attention and special treatment needed Remove the affected person from the source of contamination immediately. If you feel unwell, seek medical advice (show the label where possible). SECTION 5: Firefighting measures 5.1. Extinguishing media Alcohol resistant foam. Carbon dioxide (CO2). Dry chemical. 5.2. Special hazards arising from the substance or mixture Burning produces irritating, toxic and obnoxious fumes. 5.3. Advice for firefighters In case of fire and/or explosion do not breathe fumes. Wear:. Protective equipment. Self-contained breathing apparatus. Cool fire exposed containers with waterspray. SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures Ensure adequate ventilation of the working area. Wear suitable protective equipment. 6.2. Environmental procautions Do not allow product to enter drains. Prevent further spillage if safe. 6.3. Methods and material for containment and cleaning up Absorb with inert, absorbent material. Sweep up. Transfer to suitable, labelled containers for disposal. Do not allow runoff water to enter sewers or drains. Do not empty into drains; disposal of this material and its container in a safe way. 6.4. Reference to other sections Refer to section 8 of SDS for personal protection datalis. If outside do not approach from downwind, keeping bystanders also upwind and away from danger point. Mark out the containmented area with signs and prevent access to unauthorised personnel. Turn leaking containers leak side up to prevent escape of liquid. SECTION 7: Handling and storage 7.1. Precautions for safe storage, including any incompatibilities Keep in a cool, dry, well ventilated area. Keep containers tightly closed. Store in correctly labelled containers. Industrial uses: Uses of substances as such or in preparations at industrial sites. SUITABLE PROSENTE Control parameters LDPE Plastic containers. SECTION 8: Exposure controls/personal protection 8.1. Cont	Skin contact	Irritating to skin. Eczema. Itching.
Remove the affected person from the source of contamination immediately. If you feel unwell, seek medical advice (show the label where possible). SECTION 5: Firefighting measures 5.1. Extinguishing media Alcohol resistant foam. Carbon dioxide (CO2). Dry chemical. 5.2. Special hazards arising from the substance or mixture Burning produces irritating, toxic and obnoxious fumes. 5.3. Advice for firefighters In case of fire and/or explosion do not breathe fumes. Wear:. Protective equipment: Self-contained breathing apparatus. Cool fire exposed containers with waterspray. SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures Ensure adequate ventilation of the working area. Wear suitable protective equipment. 6.2. Environmental procautions Do not allow product to enter drains. Prevent further spillage if safe. 6.3. Methods and material for containment and cleaning up Absorb with inert, absorbent material. Sweep up. Transfer to suitable, labelled containers for disposal. Do not allow runoff water to enter sewers or drains. Do not empty into drains; dispose of this material and its container in a safe way. 6.4. Reference to other sections Refer to section 8 of SDS for personal protection details. If outside do not approach from downwind, keeping bystanders also upwind and away from danger point. Mark out the contaminated area with signs and prevent access to unauthorised personnel. Turn leaking containers leak side up to prevent escape of liquid. SECTION 7: Handling and storage 7.1. Precautions for safe handling Avoid contact with eyes and skin. Wear suitable protective clothing and gloves. Wear eye/face protection. Ensure adequate ventilation of the working area. Adopt best Manual Handling considerations when handling, carrying and dispensing. Do not eat, drink or smoke in areas where this product is used or stored. Weakh hands after handling the product. 7.2. Conditions for safe storage, including any incompatibilities Industrial uses: Use	Ingestion	Ingestion may cause nausea and vomiting.
unwell, seek medical advice (show the label where possible). SECTION 5: Firefighting measures 5.1. Extinguishing media Alcohol resistant foam. Carbon dioxide (CO2). Dry chemical. 5.2. Special hazards arising from the substance or mixture Burning produces irritating, toxic and obnoxious fumes. 5.3. Advice for firefighters In case of fire and/or explosion do not breathe fumes. Wear:. Protective equipment. Self-contained breathing apparatus. Cool fire exposed containers with waterspray. SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures Ensure adequate ventilation of the working area. Wear suitable protective equipment. 6.2. Environmental precautions Do not allow product to enter drains. Prevent further spillage if safe. 6.3. Methods and material for containment and cleaning up Absorb with inert, absorbent material. Sweep up. Transfer to suitable, labelled containers for disposa. Do not allow runoff water to enter sewers or drains. Do not empty into drains; dispose of this material and its container in a safe way. 6.4. Reference to other sections Refer to section 8 of SDS for personal protection details. If outside do not approach from downwind, keeping bystanders also upwind and away from danger point. Mark out the contaminated area with signs and prevent access to unauthorised personnel. Turn leaking containers leak side up to prevent escape of liquid. SECTION 7: Handling and storage 7.1. Precautions for safe shandling Avoid contact with eyes and skin. Wear suitable protective clothing and gloves. Wear eyelface protection. Ensure adequate ventilation of the working area. Adopt best Manual Handling considerations when handling, carrying and dispensing. Do not eat, drink or smoke in areas where this product is used or stored. Wash hands after handling the product. 7.2. Mark out the contaminated area with signs and prevent access to unauthorised personnel. Turn leaking containers leak side up to prevent escape of liquid. SECTION 7: Handling and storage 7.1. Precautions for safe handling Avoid contact with eyes and skin. Wear suitable protective clothing and gloves. Wear eyelface protection. Ensure adequate ventilation of the working area. Adopt best Manual Handling considerations when handling, carrying and dispensing. Do not eat, drink or smoke in areas where this product is used or storad. Wash hands after handling the product. 7.2. Conditions for safe storage, including any incompatibilities Keep in a cool, dry, well ventilated area. Keep containers tightly closed. Store in correctly labelled containers. Industrial uses: Uses of substances as such or in preparations at industrial sites. Suitable packaging LDPE Plastic containers. SECTION 8: Exposure controls/personal protection 8.1. Control parameters		
Ensure adequate ventilation of the working area. Wear suitable protective equipment. 6.2. Environmental precautions Do not allow product to enter drains. Prevent further spillage if safe. 6.3. Methods and material for containment and cleaning up Absorb with inert, absorbent material. Sweep up. Transfer to suitable, labelled containers for disposal. Do not allow runoff water to enter sewers or drains. Do not empty into drains; dispose of this material and its container in a safe way. 6.4. Reference to other sections Refer to section 8 of SDS for personal protection details. If outside do not approach from downwind, keeping bystanders also upwind and away from danger point. Mark out the contaminated area with signs and prevent access to unauthorised personnel. Turn leaking containers leak side up to prevent escape of liquid. SECTION 7: Handling and storage 7.1. Precautions for safe handling Avoid contact with eyes and skin. Wear suitable protective clothing and gloves. Wear eye/face protection. Ensure adequate ventilation of the working area. Adopt best Manual Handling considerations when handling, carrying and dispensing. Do not eat, drink or smoke in areas where this product is used or storad. Wash hands after handling the product. 7.2. Conditions for safe storage, including any incompatibilities Keep in a cool, dry, well ventilated area. Keep containers tightly closed. Store in correctly labelled containers. 7.3. Specific end use(s) Industrial uses: Uses of substances as such or in preparations at industrial sites. Suitable packaging LDPE Plastic containers. SECTION 8: Exposure controls/personal protection 8.1. Control parameters		
Ensure adequate ventilation of the working area. Wear suitable protective equipment. 6.2. Environmental precautions Do not allow product to enter drains. Prevent further spillage if safe. 6.3. Methods and material for containment and cleaning up Absorb with inert, absorbent material. Sweep up. Transfer to suitable, labelled containers for disposal. Do not allow runoff water to enter sewers or drains. Do not empty into drains; dispose of this material and its container in a safe way. 6.4. Reference to other sections Refer to section 8 of SDS for personal protection details. If outside do not approach from downwind, keeping bystanders also upwind and away from danger point. Mark out the contaminated area with signs and prevent access to unauthorised personnel. Turn leaking containers leak side up to prevent escape of liquid. SECTION 7: Handling and storage 7.1. Precautions for safe handling Avoid contact with eyes and skin. Wear suitable protective clothing and gloves. Wear eye/face protection. Ensure adequate ventilation of the working area. Adopt best Manual Handling considerations when handling, carrying and dispensing. Do not eat, drink or smoke in areas where this product is used or stored. Wash hands after handling the product. 7.2. Conditions for safe storage, including any incompatibilities Keep in a cool, dry, well ventilated area. Keep containers tightly closed. Store in correctly labelled containers. Suitable packaging LDPE Plastic containers. SECTION 8: Exposure controls/personal protection 8.1. Control parameters		1111
Do not allow product to enter drains. Prevent further spillage if safe. 6.3. Methods and material for containment and cleaning up Absorb with inert, absorbent material. Sweep up. Transfer to suitable, labelled containers for disposal. Do not allow runoff water to enter sewers or drains. Do not empty into drains; dispose of this material and its container in a safe way. 6.4. Reference to other sections Refer to section 8 of SDS for personal protection details. If outside do not approach from downwind, keeping bystanders also upwind and away from danger point. Mark out the contaminated area with signs and prevent access to unauthorised personnel. Turn leaking containers leak side up to prevent escape of liquid. SECTION 7: Handling and storage 7.1. Precautions for safe handling Avoid contact with eyes and skin. Wear suitable protective clothing and gloves. Wear eye/face protection. Ensure adequate ventilation of the working area. Adopt best Manual Handling considerations when handling, carrying and dispensing. Do not eat, drink or smoke in areas where this product is used or stored. Wash hands after handling the product. 7.2. Conditions for safe storage, including any incompatibilities Keep in a cool, dry, well ventilated area. Keep containers tightly closed. Store in correctly labelled containers. Suitable packaging Industrial uses: Uses of substances as such or in preparations at industrial sites. Suitable packaging LDPE Plastic containers. SECTION 8: Exposure controls/personal protection 8.1. Control parameters	6.1. Personal precautions, pr	otective equipment and emergency procedures
Do not allow product to enter drains. Prevent further spillage if safe. 6.3. Methods and material for containment and cleaning up Absorb with inert, absorbent material. Sweep up. Transfer to suitable, labelled containers for disposal. Do not allow runoff water to enter sewers or drains. Do not empty into drains; dispose of this material and its container in a safe way. 6.4. Reference to other sections Refer to section 8 of SDS for personal protection details. If outside do not approach from downwind, keeping bystanders also upwind and away from danger point. Mark out the contaminated area with signs and prevent access to unauthorised personnel. Turn leaking containers leak side up to prevent escape of liquid. SECTION 7: Handling and storage 7.1. Precautions for safe handling Avoid contact with eyes and skin. Wear suitable protective clothing and gloves. Wear eyelface protection. Ensure adequate ventilation of the working area. Adopt best Manual Handling considerations when handling, carrying and dispensing. Do not eat, drink or smoke in areas where this product is used or stored. Wash hands after handling the product. 7.2. Conditions for safe storage, including any incompatibilities Keep in a cool, dry, well ventilated area. Keep containers tightly closed. Store in correctly labelled containers. Industrial uses: Uses of substances as such or in preparations at industrial sites. Suitable packaging LDPE Plastic containers. SECTION 8: Exposure controls/personal protection 8.1. Control parameters		Ensure adequate ventilation of the working area. Wear suitable protective equipment.
Absorb with inert, absorbent material. Sweep up. Transfer to suitable, labelled containers for disposal. Do not allow runoff water to enter sewers or drains. Do not empty into drains; dispose of this material and its container in a safe way. 6.4. Reference to other sections Refer to section 8 of SDS for personal protection details. If outside do not approach from downwind, keeping bystanders also upwind and away from danger point. Mark out the contaminated area with signs and prevent access to unauthorised personnel. Turn leaking containers leak side up to prevent escape of liquid. SECTION 7: Handling and storage 7.1. Precautions for safe handling Avoid contact with eyes and skin. 8.2. Exposure controls

controls

8.2.2. Individual protection measures

Eye / face protection

Skin protection -Handprotection

Respiratory protection

8.2.3. Environmental exposure controls

Occupational exposure controls

Ensure adequate ventilation of the working area.

Wear chemical protective clothing.

Approved safety goggles.

Chemical resistant gloves (PVC).

In case of insufficient ventilation, wear suitable respiratory equipment.

Not normally required.

Wash hands at the end of each shift and before eating, smoking and using the toilet. Wash skin promptly if skin becomes contaminated. Promptly remove any clothing that has become contaminated.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance	Liquid
Colour	Red
Odour	Characteristic
Fat Solubility	No data available
Partition coefficient	No data available
Autoignition temperature	No data available
Viscosity	> 1200 mPas (Cone & Plate)
Explosive properties	No data available
Oxidising properties	No data available
рН	No data available
Melting point	No data available
Freezing Point	No data available
Initial boiling point	No data available
Evaporation rate	No data available
Flammability (solid, gas)	No data available
Relative density	> 1.12 (H2O = 1 @ 20 °C)
Solubility	No data available

Revision 0
Revision date 2015-06-16

9.2. Other information

Conductivity No data available
Surface tensior No data available

SECTION 10: Stability and reactivity

10.1. Reactivity

Avoid contact with:. Copper and its alloys. Peroxides. Strong acids.

10.2. Chemical stability

Stable under normal conditions.

10.3. Possibility of hazardous reactions

If product is contaminated and becomes unstable the product may polymerize and produce an exothermic reaction.

10.4. Conditions to avoid

Heat. Keep only in the original container at a temperature not exceeding 15 °C.

10.5. Incompatible materials

Acids. Copper and its alloys. Strong oxidising agents.

10.6. Hazardous decomposition products

Burning produces irritating, toxic and obnoxious fumes.

SECTION 11: Toxicological information

11.1.4. Toxicological Information

2-Hydroxyethyl methacrylate	Dermal Rat LD50: >5000mg/kg	Oral Rat LD50: >5000mg/kg
Butylated Hydroxytoluene	Oral Rat LD50: 1700mg/kg	Oral Mouse LD50: 800-1600mg/kg
	Dermal Guinea Pig LD50: >8000mg/kg	
Cumene	Dermal Rat LD50: 12.3mg/kg	Oral Rat LD50: 2910mg/kg
Cumene hydroperoxide	Inhalation Rat LC50/4 h: 220ppm	Oral Rat LD50: 382mg/kg
p-Toluenesulfonyl hydrazide	Oral Rat LD50: 283mg/kg	Dermal Rabbit LD50: >2000mg/kg
Triethyleneglycol Dimethacrylate	Oral Mouse LD50: >200mg/kg body	
	weight	

SECTION 12: Ecological information

12.1. Toxicity

2-Hydroxyethyl methacrylate	Algae IC50/72h: 836.0000 mg/l	Fish LC50/96h: 100.0000 mg/l
Butylated Hydroxytoluene	Daphnia EC50/48h: 1.4400 mg/l	
Cumene	Fish LC50/96h: 6.3200 mg/l	
Cumene hydroperoxide	Fish LC50/96h: 3.9000 mg/l	
Triethyleneglycol Dimethacrylate	Fish LC50/96h: 16.4 mg/l	

12.3. Bioaccumulative potential

Partition coefficient

AT04 No data available

12.5. Results of PBT and vPvB assessment

The product does not contain any substances classified as PBT or vPvB.

SECTION 13: Disposal considerations

General information

Dispose of in compliance with all local and national regulations.

Disposal methods

T62

Revision 0
Revision date 2015-06-16

Disposal methods	
	For disposal within the EC, the appropriate code according to the European Waste Catalogue (EWC) should be used.
Disposal of packaging	
	Empty containers can be sent for disposal or recycling.
SECTION 14: Transport inf	ormation
14.1. UN number	
	The product is not classified as dangerous for carriage.
14.2. UN proper shipping nan	ne
	The product is not classified as dangerous for carriage.
14.3. Transport hazard class(es)
	The product is not classified as dangerous for carriage.
14.4. Packing group	
	The product is not classified as dangerous for carriage.
14.5. Environmental hazards	
	The product is not classified as dangerous for carriage.
14.6. Special precautions for	user
	The product is not classified as dangerous for carriage.
14.7. Transport in bulk accord	ding to Annex II of MARPOL 73/78 and the IBC Code
	The product is not classified as dangerous for carriage.
SECTION 15: Regulatory in	nformation

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

COMMISSION REGULATION (EU) No 453/2010 of 20 May 2010 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC. REGULATION (EC) No 1907/2006 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC.

SECTION 16: Other information

Other information

Text of risk phrases in Section 3

R7 - May cause fire.

R10 - Flammable

R21/22 - Harmful in contact with skin and if swallowed.

R23 - Toxic by inhalation.

R25 - Toxic if swallowed.

R34 - Causes burns.

R36/38 - Irritating to eyes and skin.

R37 - Irritating to respiratory system.

R43 - May cause sensitisation by skin contact.

R44 - Risk of explosion if heated under confinement.

R48/20/22 - Harmful: danger of serious damage to health by prolonged exposure through inhalation and if swallowed.

R51/53 - Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic

T62
